

University of Pittsburgh

# CS 1900/1950 Introduction

Course Requirements and Logistics

School of Computing and Information  
Department of Computer Science

# About the Instructor

## ■ Wonsun Ahn

- First name is pronounced *one-sun*
- Or you can just call me Dr. Ahn (rhymes with *naan*)

## ■ Research Interest

- Computer architecture, Compilers, Quantum computing

# Course Requirements

1. Attend each class (3 absences results in fail)
  2. Write a final paper on your work to the instructor
  3. Give a presentation on your work to your peers
  4. Do peer reviews of each other's talks on TopHat
  5. (CS 1950) submit progress reports to Canvas Experiential Learning Hub
- You need to fulfill all of the above to pass this class
  - Please refer to course webpage for details:  
[https://wonsunahn.github.io/Capstone\\_Spring2025/CS1900\\_1950/](https://wonsunahn.github.io/Capstone_Spring2025/CS1900_1950/)

# Your paper is consumed by instructor

- What I will be looking for:
  1. Technical work commensurate to a capstone was done
  2. Whether you had any insurmountable difficulties
    - Purpose is to compile a “blacklist” for advising future students
  3. Well organized paper with sections and subsections
    - Goals, implementation, and outcomes are clearly stated
    - Each section, paragraph, and sentence has clear focus
- There is a link to a template (and more) on this URL:  
[https://wonsunahn.github.io/Capstone\\_Spring2025/final\\_paper](https://wonsunahn.github.io/Capstone_Spring2025/final_paper)

Your talk is consumed by your peers

UNIVERSITY OF

# Why give a talk in front of my peers?

1. To share experience with your peers
  - You worked on unique topics, ideas, products
  - You worked for a unique organization
2. To gain practice in giving a technical talk
  - Learn how to structure your ideas
  - Learn how to design slides effectively
  - Learn how to deliver your ideas impactfully
3. **NOT** to report on your internship to your instructor
  - That purpose is already fulfilled by your final report

# Any experience is worth sharing

- Your experiences may include...
  - A small local company that is doing cool things:  
What is unique about working in that company?
  - A new interesting job category:  
How does it compare to SW developer? Did you like it?
  - Software development methodology:  
How did you feel about it? Did it increase productivity?
  - Challenges you faced (technical, interpersonal, organizational):  
How you did you resolve them? What did you learn?
- Bad experiences are also worth learning from:  
What would you do differently next time?

# Before presentation date

- Submit all slides to Canvas by **Thursday 9 PM**
  - Preferred format: Powerpoint, PDF
  - Submit to the “Presentation Slides” link
  - Put title, name, and project on cover page
    - So that your friends know who you are and where you worked
  - Put company or project logo/name in slide template
    - To remind the audience where you worked throughout the talk
- Your slides will be ready for you next day on TopHat
- Practice out loud and time yourself

# During Presentation

- ~2 talks per day.  $50 / 2 = 25$  minutes per talk.
- 15 minutes: Presentation talk
  - Speaker: Present on TopHat using instructor's laptop  
(If using your own laptop, let me know ahead of time)
- 8 minutes: Q & A
- 2 minutes: Intermission
  - Switch speakers, audience completes peer feedback
- **Keep your own time** using your cell phone
  - I will cut you off if you go over 20 minutes with no warning

# After Presentation

## ■ Audience:

- Submit TopHat review by **midnight**, same day
  - Give scores for Content, Organization, and Delivery
  - Freeform comments on the Feedback section

## ■ Speaker:

- Submit Final Paper by **following Friday by midnight**

# You can be honest with your review

- Scores and feedback are **anonymous**
  - Only score averages will be posted to TopHat for presenter
  - Feedback is immediately visible, but names are hidden
- Scores and feedback do **not impact final grade**
- For 3 top scorers, there will be cash prizes:
  - 1<sup>st</sup> place - \$100, 2<sup>nd</sup> place - \$50, 3<sup>rd</sup> place - \$25
  - Deposited into your PittFund\$Me account

# But be constructive with your review

- Don't judge presenter on the work done
  - Judge presenter on how the work was presented
- Positive feedback is as valuable as constructive feedback
  - Remember most are new to public speaking; be encouraging!
  - Remember that constructive is not the same as negative.
- Be specific with your feedback
  - Regardless of whether it is positive or constructive
  - Instead of "I loved it" say "I loved how engaging you were"

# TODO Action Item

- Make sure you are enrolled in TopHat
- Do the TopHat survey by this weekend
- Talk to your supervisor about what you can publicize
  - Any intellectual property issues?
  - Any confidentiality issues?
  - Note: you are not expected to publicize code 😊
- If your organization has any red tape, please start the process asap and let me know
